# LEADERSHIP TEAM BIOS

## Vatsal Ghiya,

Co-Founder, CEO

As Co-Founder and CEO of Shaip, Vatsal Ghiya has 20+ years of experience in healthcare software and services. Besides Shaip, he also co-founded ezDI – a one-of-a-kind cloud-based software solution company that provides a Natural Language Processing (NLP) engine and a comprehensive medical knowledge base with products such as ezCAC and ezCDI which are computer-assisted coding and clinical documentation improvement products called. In addition, Vatsal co-founded Mediscribes, a company that provides medical transcription-based offerings in the healthcare domain.

## Hardik Parikh

Co-Founder, CRO

Hardik Parikh, the Chief Revenue Officer at Shaip, has 15+ years of technology experience in SaaS products. He is currently focused on building and scaling Shaip's AI data platform that combines a human-in-the-loop solution to provide high quality training datasets used to train AI models. In addition, Hardik also built emPower Solutions that provides compliance, training solutions, and learning management software to industries such as financial, healthcare, utilities, services and higher education. This unique simulated phishing solution and training prepares employees to combat social engineering.

## GV Freeman

Chief Marketing Officer

Gv Freeman brings to Shaip a proven history of developing and implementing high-performing marketing, sales and growth strategies that drive new revenue streams and consistently deliver results. With decades

of experience providing guidance to build technology companies and their leadership teams, his systematic approach to growth is rooted in the Product Founder's Journey that teaches founders about the importance of how to "build their company and take care of themselves in the process."

## Rahul Mehta

### VP – Global Operations

Rahul Mehta is a global strategy and operations leader at Shaip. He brings with him over a decade of experience in scaling teams and processes in high-growth enterprises in India and the U.S. His integrity and passion for performance played a vital role in notable achievements throughout his professional career, including: customer care, project implementations and effectively leading global operations. At Shaip, he is focused on quality, deliverance, training and client satisfaction to achieve success today and well into the future of our company and for our clients.

## Utsav Shah

### Business Head – APAC & Europe

Utsav Shah is a highly experienced Data Science and Product Analytics Professional. His diverse experience covers e-commerce, on-demand ride-sharing/food delivery services, and the social impact sector. This gives him the technical skills required at Shaip to deal with data as well as drive insights from raw data to shape business decisions and drive growth.

## Chetan Parikh

### Board Member

Chetan Parikh, a serial entrepreneur, and Shaip board member has 15+ years of experience within the AI Data category. As the CEO of ezDI, he is responsible for the overall growth of the company. At heart he is

a technologist. He strongly believes that for any company to become a significant & formidable player, a strong technology backbone is essential. He has initiated various initiatives & collaboration, which has resulted in ezDI's technological advantage. Chetan is a certified Six Sigma Black Belt & holds various patents. He is an avid reader and a charter member of TiE Ahmedabad. He is also a co-founder of Mediscribes.
